Table 3. Factor loadings and thresholds for each item of RIBS-BP intended behaviour factor model

Item (*"In the future..."*)		Factor Loadings	SE	p-value
I would be willing to live with someone with a mental health problem		0.73	0.02	0.000
I would be willing to work with someone with a mental health problem		0.83	0.02	0.000
I would be willing to live nearby to someone with a mental health problem		0.89	0.02	0.000
I would be willing to continue a relationship with a friend who developed a mental health problem		0.79	0.02	0.000

Item (*"In the future..."*)	Category	Thresholds (z-score)	SE	p-value
I would be willing to live with someone with a mental health problem	"Agree strongly" to "Agree slightly"	-1.18	0.04	0.000
	"Agree slightly" to "Neither agree or disagree"	-100	0.04	0.000
	"Neither agree or disagree" to "Disagree slightly"	-0.26	0.03	0.000
	"Disagree slightly" to "Disagree strongly"	0.25	0.03	0.000
I would be willing to work with someone with a mental health problem	"Agree strongly" to "Agree slightly"	-1.34	0.05	0.000
	"Agree slightly" to "Neither agree or disagree"	-1.15	0.04	0.000
	"Neither agree or disagree" to "Disagree slightly"	-0.77	0.04	0.000
	"Disagree slightly" to "Disagree strongly"	-0.37	0.04	0.000
I would be willing to live nearby to someone with a mental health problem	"Agree strongly" to "Agree slightly"	-1.73	0.06	0.000
	"Agree slightly" to "Neither agree or disagree"	-1.60	0.06	0.000
	"Neither agree or disagree" to "Disagree slightly"	-1.26	0.05	0.000
	"Disagree slightly" to "Disagree strongly"	-0.82	0.04	0.000
I would be willing to continue a relationship with a friend who developed a mental health problem	"Agree strongly" to "Agree slightly"	-2.12	0.08	0.000
	"Agree slightly" to "Neither agree or disagree"	-2.03	0.08	0.000
	"Neither agree or disagree" to "Disagree slightly"	-1.50	0.05	0.000
	"Disagree slightly" to "Disagree strongly"	-0.99	0.04	0.000

Note: SE, standard error.
